Fundraising Events

Onsite Electronics Recycling

offers fundraising projects for schools, churches and non-profit organizations. These are a good opportunity to raise money, while properly recycling used electronics.

Onsite will conduct an electronics recycling event for the sponsoring organization in which we will provide labor, supplies, transportation and responsible recycling of used electronics. In addition, Onsite will provide advertising assistance which may include designing of flyers, newspaper advertisements and providing a banner for the event. Alternate collection means are additionally available.

The sponsoring organization is responsible for providing a location for the event, publicity of the event to ensure a good turn out and providing 3-4 volunteers (over 18 years) to assist with the collection. The more people who attend the event, the more money will be made for the organization. Onsite will pay the sponsoring organization a per pound rate for all Televisions and Monitors which are received at the event.

ENSURE RESPONSIBLE RECYCLING OF ELECTRONICS!

There is a high demand overseas for electronics equipment and often material sold & shipped to other countries is improperly disposed of causing environmental damage. Ensure this doesn't happen to the electronics you collect. Many companies who provide fundraising opportunities simply collect electronics and send them elsewhere for recycling.

Onsite Electronics Recycling has a local facility located in Stockton where ALL electronics they collect are dismantled and properly recycled. No materials are sold or shipped overseas and all hard drives are shredded to ensure data security.
